

## Grants based on Call 2022-X (Extended operations of ESA Science missions)

Formal SNSA allocations for grants were decided on 2023 January 3. The table below does not guarantee funding. The grants are planned to be specified in Prisma in the week of January 9-13, followed by agreement to the grant terms by researchers and organisations. Feedback to applicants can be expected in January.

Dnr	Principal applicant	Affiliation	Project	Grants (kkkr)				Total	Comment
				2023	2024	2025	2026		
2022-00079	<b>Mats André</b>	IRF	Cluster / EFW, Active Archive	162				<b>162</b>	3 months*
2022-00099	<b>Per-Arne Lindqvist</b>	KTH	Cluster Scandinavian Data Center	196				<b>196</b>	3 months*
2022-00103	<b>Ulrike Heiter</b>	Uppsala U.	Gaia / DPAC / CU8	1 609	1 652	1 696	435	<b>5 392</b>	Until 2026-Q1
2022-00104	<b>Mats Holmström</b>	IRF	Mars Express / Aspera-3	292				<b>292</b>	3 months*
<b>Sum:</b>				<b>2 259</b>	<b>1 652</b>	<b>1 696</b>	<b>435</b>	<b>6 042</b>	<b>kkkr</b>

\* For Cluster and Mars Express there is big uncertainty concerning future operations. Currently, ESA has extended the missions until March 31, 2023, which explains the short grants. A new decision is anticipated when the situation has been clarified.
